

MISSISSIPPI DELTA COMMUNITY COLLEGE
ASSOCIATE DEGREE NURSING PROGRAM
COST ESTIMATE 2026-2027

Please Note:

This estimate of costs is meant to be used only as a guide to students, parents, and sponsors. The figures are based upon previous school year averages and are not binding on the college or the nursing department.

Several items necessary for the program in nursing cannot be accurately estimated. The student's travel expenses to clinical laboratory experiences will vary due to location. All students, whether they live in the dormitory or commute, are responsible for their own transportation to hospitals and other health care agencies utilized in the nursing curriculum. Each student must have dependable transportation each week during both academic years. These expenses are not included in the cost estimate. Uniform and accessories are ordered through the college bookstore. Costs will vary according to the style selected as well as the size. Textbook costs are based on those required for each course. Students purchasing supplementary textbooks will have increased costs. All costs are approximate and subject to change without notice. Taxes are not included
